

## SOFTWARE INSTALLATION

There are 2 ways to install Luci:

- Download the 'PC-install' program directly from [www.luci.eu/downloads.html](http://www.luci.eu/downloads.html) This enables you to install the software with your PC through your ActiveSync connection.
- Download the 'cab'-file directly from [www.luci.eu/downloads.html](http://www.luci.eu/downloads.html) with your PDA and start the installation directly on your PDA.

## LICENSE INSTALLATION

### START SETUP IN YOUR PROGRAMS FOLDER

#### You will now enter the page Registration

If you have purchased Luci online via [www.luci.eu/purchase.html](http://www.luci.eu/purchase.html) , your Keycode request ID will be issued in your order confirmation e-mail. If you have purchased Luci any other way you will also receive an e-mail with these important numbers. Be sure to save these numbers in case you need to re-install your Luci® Software.

Registration is the process of unlocking your software for one particular PDA. To unlock, you request a unique 'key-code' that belongs to the particular PDA you use to register and want to use Luci on.

When you buy a number of licenses for Luci, you receive a Key-code request ID from us that enables you to request that number of different key-codes from our license server. For each PDA that you register, fill in the key-code request ID and press 'Request key-code'. First, a message appears to confirm that you have an internet-connection.

- If you have an internet-connection and answer OK you will receive the key-code after a few seconds.
- If you do not have an internet connection and still answer OK a license-file called 'Key-code request ID'.lrg (ie 1234567890.lrg in the example on your left) is copied to the 'My documents'-folder. Send this file to [sales@luci.eu](mailto:sales@luci.eu) and we will email you the keycode back.
- When you have an internet-connection but something goes wrong you can also email this file to [sales@luci.eu](mailto:sales@luci.eu).

After you have pressed 'Request key-code' and you received the Key-code it is automatically filled into the field called 'Key-code' and a message appears to indicate how many licenses you have left if you purchased more than one.

Select OK to confirm.

You will now have full access to the Luci® Software with all features included in the application of your choice without any interruption.
