

CLIPEDITOR

STEP 3

To create a new file to which you can record choose menu Tools → Project

Now you see all the files recorded in this project. With this tool you can listen to all recordings of a project, create a **New** recording, **Record** at the end of an older recording, **Insert** a previous recording or **Remove** a recording.

If you are ready with your recordings you can send them via email or FTP as soon as you have an internet-connection with your PocketPC.

Send only 1 clip of the project

Set the cursor on this clip and choose menu Send → Clip

Send the whole project as 1 file

Choose menu Send → Project
